General Report Comments: There was no people at home and I hooted but noone came out. I issued a warning advising the owner to contact me and as I was trying to secure the warning on the gate I realised that the gate was not locked. I opened the gate and I went to another gate where I observed the dog,water and there is a dog kennel next to the wall and you cant see it from the road. I contacted the complainant and she told me that she didn't know that there was a kennel and she has never saw the dog being walked. As I had already issued a warning,I am going to wait and see if the owner contacts me but there is no walfare concern.
