General Report Comments: There was no people at home. I saw 1x brown and black male dog inside the property. The dog appears to be sick,possible tick bite fever. I also noticed that the dog is limping,but it looks like an old injury. While standing in front of the house the neighbour approached me and said that the people are working,I asked him about the dog's paw and he said according to the owner the dog was born that way. Water and shelter is available. I asked warning W6831 for the following.
* Provide the dog with veterinary treatment within 72 hours.
Will follow up.
