General Report Comments: I observed the female dog named Emmy tied to a broken bakkie with a rope. Upon asking why the dog is tied I was told by Angelicue that her son is bringing a male Pitbul do that they can mate . The rope is short and I convinced Angelique to let the dog run freely which she did . According to Angelicue the dog sleep inside the house but where she was tied there is no adequate shelter. I asked Angelique if she doesn't want to have the dog sterilized and she informed me that she is going to think about it and will tell me on my next visit as her son will be gone back to work.
