General Report Comments: I saw 1x black terrier x male on a +-10 meter long rope. Upon closer inspection I saw that the dog is starting to get a skin problem. A lady who introduced herself as Carmen came from inside the house and told me that the dog belongs to her cousin but he is working at the moment. I also noticed that the dog does not have a collar around his neck. Water and shelter is available. I issued warning W6840 to treat the dog for the skin problem and to provide the dog with a collar. Will follow up.
