General Report Comments: When I did the last inspection Katelene was scared to touch the dog so I couldn't see the cancer on the penis. Miguel did manage to hold the dog and I could see the dog properly. The dog is still on a tangled chain without swivels. I issued a 24 hour warning advising Mr Van Rooyen to:
(1) seek vet treatment for the cancer on the dog's penis
(2) provide swivels on both ends of the chain
