General Report Comments: I was met by the owner Mr. Pieter on the farm. The horses were out grazing in the field. Mr. Pieter told me that he is going to let the horses out during the day and only put them back in the kraal at night. The reason why he puts them in the kraal is, the farm Welgedaan borders to Middelspos informal settlement and according to Mr. Pieter someone has already killed one of his horses. The other reason is that the people at Middelspos cut the fence, and the horses roams onto other farms which then causes problems. I told Mr. Pieter that I understand his problem but he can't let the horses be in the kraal without water. The horses can roam freely during the day where they have access to the water trough that is a few metres away from the kraal. Food was also observed for the horses. Will do a recheck.
