General Report Comments: On my arrival, I was welcomed by Mr Renier Van wyk the owner of the dog, I observed a male brown staffie cross roaming freely in the premises, shelter was available, water was available, living environment was cleaned, the owner also bought ticks and flea powder and dog spot on for ticks and fleas, of which on my arrival the dog was already applied with tick powder.
According to Mr Renier, he said he borrowed the dog from his family friend in no 93 5th Avenue Darling because they broke into his property, the dog has been with him about 4 days so far, he said also the reason why he had to put the dog on a leash, is because he noticed that the dog it mange to jump the precast wall of about 6 meters height around his property served as a fence, it was for the first time put the dog on a leash only when he went out during the day.
No animal welfare concerns observed, I educated the owner about sterilization.
