General Report Comments: There is two Anotolian Sheperd dogs on the property and seven free range chicken . The adult dog named Arnie is 15years and struggling to walk. I discussed this issue with Mr Theo and he informed me that he needs time to discuss with his daughter and son and then he can have the dog put to sleep. I did advised the SPCA can help him putting the dog to sleep . Besides the old age, the animals walfare is not compromised. The other dog named Ben is very aggressive and Mr Theo had to lock him outside. I observed water,food and shelter. The chickens are roaming freely inside the property and they do have access to water,food and shelter. I later phoned Mr Theo's daughter Anke to inform her about my visit to her parents place and she promissed to call her brother tonight and discuss this issue.
