General Report Comments: On arrival I met Maria who took me to the back where the dog was being kept. The dog was not confined but he was lying on the ground. The dog looked very sick and Marlen surrendered the dog. I was informed that there is also a cat at the property but I didn't see the cat as the cat was not at home. I observed water, food and shelter. I issued a warning advising the owner to provide vet treatment for any sick animal in future
