ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: On my arrival to the property, I was welcomed by Mr Irvin Summers the owner of the 2 dogs that I observed in the property. I observed 2 dogs, male black&white pitbul named Cody that had healed scars on the thigh left leg and almost healed wounds on the right thigh leg, according to the owner the dog is able to jump the fence or even sometimes crawl under the fence because the property is not adequately fenced, on Tuesday last week 07/04/2026 during the day there was some dogs on passing on the street and Cody jumped the fence and went to the dogs of which one of the dogs was a female in that Cody managed to mate with the female dog and it locked and the two dogs started to bite Cody on his back legs. The owner bought F10 wound spray for Cody and it helped with healing improvement, he said it was not the first time Cody got but marks, sometime juring the year one if the days they woke up in the morning Cody was lying in the back of their bakkie and had fresh bite marks on him.

I also observed a black&brown German shepherd cross female named Stormy, she physically appeared looking good in condition with no veterinary problems or health concerns.

Water was available, shelter was available, living environment was cleaned, all the dogs was roaming freely in the premises and the premises is not adequately fenced. I then educated the owner about sterilization, he sad he will think about it sometime during the week I can call him back to find out what he decides.

I then tried to contact the complainant to give her/him feedback but it takes me on voicemail/unavailable.

ACTIONS

OWNER EDUCATED

REPORT OUTCOMES

No welfare concerns found - NFA
