CLEAN LIVING ENVIRONMENT	Yes
ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - property not adequ

General Report Comments: On my arrival, I was welcomed by Mrs Hester Hermanus the owner of the dogs, according to Mrs Hester they are living in the same farm with the complainant of which they have personal disputes (the complainant said the dogs are not allowed to be in the farm), I observed a male adult brown Africanis and female brown&white adult Africanis with a female brown Africanis puppy, the dogs all appeared physically looking good in condition with no veterinary problems or health concerns. Water was available, shelter was available, living environment was cleaned, I found the dogs roaming freely in the farm. Mrs Hester complained that the female adult dogs keeps giving birth and in that manner she does not wat the female adult dog with the puppy, she asked that I can take both, I then filled her admission form for both adult female and puppy separate forms each, I then collected the adult female dog with its female puppy and brought them to spca Darling. I did not find any welfare concerns regarding Mrs Hester dogs or animals. I then educated Mrs Hester about sterilization.
