CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: On my arrival I was welcomed by Mrs Madelyn and Mr Douw, I observed 2 dogs in the her premises of which she is the owner of the dogs, the dogs I observed a weimaraner female chocolate brown 1 year 5 months named Bertus, and a female brown&white jack russell breed 13 years named Mienkie, both dogs appeared physically looking good in condition with no veterinary problems or health concerns. Adequate shelter was available, clean fresh potable water was available, and living environment was cleaned, the shelter was available in the form of a dog kennel placed on the stoop under a varender. The premises has sufficient spaces to help stimulate the dogs .
The premises had palisade fence type with mesh wire from bottom up to half way of the palisade, at the back it's a diamond fence type of 7 meters high.
According to Mrs Madelyn, the dogs they bark whenever they see anything they feel should bark at.

I then notified the complainant that this is a nuisance complain(dog barking) she must logge a complain to the law enforcement by laws.

ACTIONS

OWNER EDUCATED

REPORT OUTCOMES
