General Report Comments: Both dogs have mange that is in it's early stages. When I arrived Ayabonga was busy dipping both dogs. He informed me that he got the dip from the animal people. The mange on these too dogs is just patches on the back. Ayabonga informed me that the dog people gave the dogs some tablets for the skin condition but he couldn't tell me who these dog people are as he claimed that he didn't ask them. He doesn't know the name of the tablets too. I will recheck
