General Report Comments: On my arrival doing door to door welfare inspection in Riebeek Kasteel, I went to house no 17 Sonneblom Street, I was welcomed by Mrs Leilani, I observed a male black/white pitbul and female brown/white pitbul, the male pitbul appeared physically not looking good in condition (appeared to have cancer around the penis, anus, and the neck, also unable to walk properly), while the famel pitbul looked well with no veterinary problems or health concerns, water was available, shelter was available, living environment was cleaned. I issued the owner with a notice to comply and educated her about the sterilization.
