General Report Comments: On my arrival doing door to door welfare inspection in Abbotsdale, I went to house no 19 Wilger boom street, I was welcomed by Mrs Aanana the owner of the dog, I observed a female Maltese cross breed dog whit in colour roaming freely close to the yard outside the property on the street, the appeared physically not looking good in condition(it had a skin problem of which I suspected could be mange). Water was available, shelter was, living environment was cleaned, the premises was not adequately fenced ad had no gate.
I then asked the owner why isshe keeping the dog in this condition and I told her that I will have to issue her with a notice to comply to render adequate veterinary treatment for the dog, then she said she does not watthe dog any more because sheis even not at home full time she is at work in Capetown, she then said it's best if the spca takes her dog as a surrender, I then filled her admission form as a surrender and I collected the dog and brought it to the spca Darling.
