CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: On my arrival doing door to door welfare inspection in Malmesbury illengulethu, I went to the house in Jakaranda street, I was welcomed by Mr Khaya the owner of the dog, he then said immediately Tha he had a puppy that looks sick and he want the spca to take it, I then educated him Tha in future should he come across the same situation then he must Tae the animal for adequate veterinary treatment or Alternatively he can contact the spca to come collect the dog . I then wentinto to the premises and observed abrown/white puppy was lying on the ground it appeared physically not looking good in condition and looked sick and weak. I then filledthe owner admission form as a surrender, I then collected the puppy and brought it to the spca Darling. Shelter was available and water was also available, living environment was cleaned, and the premises was adequately fenced with sufficient space inside .
