General Report Comments: On my arrival, I observed a male black&white dog roaming freely on the street, it appeared physically looking to have mange, the owner Mrs Mckayla came to out to the street and she said I must take the dog because it's not looking good and she doesn't want it in the yard anymore because it spreads ticks/fleas over the yard, I then Sametime filled her with admission form as a surrender and took the dog brought it to the spca Darling. I then educated the owner that in future should she come across the same or similar situation she must provide the animal with adequate veterinary treatment or Alternatively she contacted the spca .
