General Report Comments: The SPCA received a complaint regarding a parrot plucking his feathers at Pets4All petshop in Langebaan. I went to do a routine recheck at the petshop. Mr. Chapman the owner was present on my inspection. I asked Mr. Chapman about the Galah Cockatoo that is plucking his feathers and asked if the bird is receiving any treatment. We went to the bird and I could see that the bird is plucking his feathers by the neck area. Mr. Chapman showed me the treatment he is using on the bird for the feather plucking. Mr. Chapman also said that he got the bird from someone in Moorreesburg and that he will contact the owner to come fetch the bird. The other parrots is in acceptable conditions. Will follow up.
