Comments:	On my arrival to AdrHof flats in Royal street Moorreesburg , I met Mrs Maryna Mouton the complainant, there I observed 3 cats in the property raoming freely, only 1 cat out of the 3 cats could not move, a tabby male cat that appeared physically looking sick and possibly paralyzed it's both back legs. The other 2 cats appeared physically looking good though they just walked away whenever I tried to approach them. I then walked to the neighbors to ask about the cats and they said the cats are stray cats they belongs to know one. Therefore Mrs Maryna the complainant signed the cat as a stray, then I took the and brought it to the spca Darling and was humanely euthanized, see admission no E3705 . Mrs Maryna said there is another cat that looks similar in condition like the one paralyzed, said she will contain the cat if she sees it and will notify the spca once contained.
