General Report Comments: On my arrival, I was welcomed by Mrs Sheryl Van Zyl and with other 4 people by the name of: Kiara, Chris, Caroline and Bianca.

While I was there, Mrs Sheryl contacted her husband and the husband asked to speak with me over phone(he asked me why am I at his premises and I must come when he is available, I then replied him kindly, that according to Animals Protection Act no 71 of 1962 the definition of "owner", her wife Mrs Sheryl is considered as the owner as she is the one available in the property. He then said it's fine, husband name is "Graeme Peek".

I then observed all the animals in the property, 14 dogs kept in locked separate rooms(the rooms was dark inside with no proper ventilation and least some rooms had single beddings with blankets, and some had couches as bedding).

Water was available, and living environment was cleaned.

ANIMALS CONDITION :

Only 2 dogs out of 14 dogs named Max and Chole appeared physically looking good in condition with no veterinary problems or health concerns.

Other animals with concerns, a female white maltese cross poodle named Roxy, she appeared physically having tangled hair and had also external parasites(possibly ticks&fleas) on its body. The other female brown dog terrier cross breed named Baby Ciarra, appeared physically looking underweight and had also external parasites (possibly ticks&fleas) on its body.

The following animals appeared physically not looking good(underweight) in condition : Black male Africanis breed named Blade, and black&white female Africanis breed named Sky, and 2 dark brown with white males Africanis breeds named Bullet&Fiesty, and also x4 puppies.

A brown female adult Africanis breed named Ciarra, mother of the 4 puppies named above, she appeared physically looking good in condition with no veterinary problems or health concerns.

CONCLUSION :

I issued Mrs Sheryl with a notice to comply, refer attached.
