CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: On our arrival with inspector October and myself, we met Mr Graeme Peek the owner of the dogs, we observed all the same previous dogs as the first inspection, the dogs appeared physically looking underweight and some appeared to have skin problem (possibly mange), Roxy white Maltese cross poodle appeared physically having external parasites (fleas), the cats and dogs(appeared physically looking underweight), it was only Max and pitbul and other 2 Africanis black dogs that they appeared physically looking reasonable to good in condition.

The owner was advised and educated by Inspector October to reduce the number of the dogs by surrounding some since he can't afford to render veterinary treatment and can not provide sufficient adequate food for all of the dogs. Mr Graeme Peek then agreed and understood, he then surrendered 10 dogs and all the 5 cats, of which he remained with 5 dogs that are mentioned above of which they physically looked reasonable to good in condition.

I then took all the surrendered dogs and brought them to spca Darling and was humanely euthanized because they were not adoptable, only Roxy white Maltese cross poodle was not euthanized.
