General Report Comments: On my arrival, I was welcomed by Mr Wilhelm Markus also known as the owner of the dogs. He welcomed me into his property and I observed 2 dogs(adult male black pitbul breed 10-12 years named Spanner, and adult female black&white Africanis breed 4-5 years old named Lady), both dogs appeared physically looking good in condition with no veterinary problems or health concerns.

The property was not adequately fenced, in that the dogs are able to go out to the street. I then educated the owner about the animals might get harm from the public vehicles, he needs to try to secure the yard to prevent the dogs from going out to the street.

Water was available, shelter was available as a varenders, and living environment was cleaned.

I also educated the owner about sterilization.
