General Report Comments: On my arrival, I met Mrs Desmorien Prins a family member in the property not under age, there I observed 2 dogs in the property roaming freely though the property was not adequately fenced with no gate, I observed a white male pitbull dog breed named Bullet appeared physically not looking good in condition (possibly mange), and the other male brindle Africanis Cross dog appeared physically looking good in condition with no veterinary problems or health concerns.

Water was available, shelter was available, and living environment was cleaned.

I educated the owner about the negative impacts they might experience due to the pitbull dog that appears not looking good(possibly mange), there was kids in the property and so far the other young child was already started to have skin problem rash.

Mrs Desmorien the surrendered the dog with mange as they can't afford to render veterinary treatment for the dog, said Mrs Desmorien. I then took then took the dog and brought it to the spca Darling and humanely euthanized, refer admission no. E3984
