General Report Comments: I was granted access to the donkeys by Mr.Deyzel who is the manager. We went to the paddock where the donkeys are being kept. The paddock is clean. Fresh water and food is available. Shelter also available. Mr. Deyzel called the guy who handles the donkeys so that I can do close up inspection on their hooves. The donkey called Hester hooves needs to be cleaned and trimmed and the other 2x donkeys hooves needs to be cleaned. All the donkeys body conditions is acceptable. I also told Mr. Deyzel that the donkeys should not be worked until a Ferrier has been there. Mr. Deyzel understood and gave the instruction that the donkeys should remain in their paddock until they have been seen by the Ferrier. I issued warning W6357. Will follow up.
