General Report Comments: On my arrival, I met Mr Makhosandile Mahlasela the owner of the property, I observed x6 dogs all appeared physically looking good in condition with no veterinary problems or health concerns. The living environment was cleaned, shelter was available, water was available, and food (dog pallets) was available.
The owner did confirm that he does uses the dogs feces as manure for his plants , I did not smell any bad smell aroundthe garden.
There was another lady across the street opposite the house I was investing, she stood at her property gate and Mr Mahlasela and the lady they both started to exchange words insulting each other. The complain sounded more like neighbors personal dispute.

I then contacted the complainant after the investigation that, I did not find any animal welfare concerns, therefore he must liaise with the municipality Bylaws.

I also educated Mr Mahlasela about the sterilization.
