Inspector: LOUISE VAN ZYL

Type: CASE DISCUSSION NOTE

Follow-Up Date: 2026-06-15

Comments: Dear Swartland & West Coast SPCA Team,

Thank you from the bottom of my heart for your swift response and for confirming that an inspector will be investigating within the next 24 hours.

I am deeply concerned for Mona Lisa's life and safety right now, and knowing that your team is moving quickly brings immense relief.

The physical address for the inspection is:
Kleinberg Accommodation Contractors,
R27, Langebaan area.

Regarding her future care:

Please note that I am fully prepared to take permanent ownership of Mona Lisa and bring her into my family through your official adoption or fostering channels. If she is legally seized, I will take her in without hesitation.

Critical Safety Request:

I completely understand your warning that people may try to draw their own conclusions. Because I am actively involved with local animal welfare NPOs and have been pushing for spaying and neutering on this farm, everyone here knows I am an animal advocate.

If an inspector walks in asking exclusively for Jirah's room, it will immediately put myself and my own dogs in danger of severe retaliation (such as poisoning).

There is an extensive population of strays and neglected animals across this entire farm property. To protect my safety, please instruct the responding inspector to treat this as a routine, farm-wide welfare sweep of all the animals.

When checking the overall welfare of the property, the inspector can naturally ask the manager (Mike) or workers to show them the staff living quarters to check for pets. This will allow them to "discover" Mona Lisa locked in Jirah's room organically, completely protecting my anonymity.

Thank you again for your incredible dedication and compassion. I am keeping the heavy chain safe to hand over to your inspector when it is safe to do so.

With deep gratitude,
Ms. Rae
