General Report Comments: As arrived at the property I saw 1x brown and white Jack Russel terrier x barking next to the fence. I got out of my vehicle and called to see if anyone is at home but nobody was present. I then went to the fence to observe the dogs living conditions. The Jack Russel terrier x male is on a short static chain, about 3 meters in length, attached to the chain is a material choker collar around the dogs neck. Body condition 3/5. Living area is clean, no foreign objects in the dogs space. Water bowl is in direct sunlight and dirty. Shelter is provided in the form of a kennel, I've noticed that the kennels roof was lying next to the kennel, so I don't know if the dog bumped it off or if they remove the roof for cleaning purposes. I issued warning W6366 and will follow up within 6 days.
