VETERINARY PROBLEMS / HEALTH CO	Yes ***	Open wound on left leg.
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	The property is not fully fenced and the dog keeps on attacking

General Report Comments: I finally found the address after the right pin location was send. Upon arrival I was met by a man who introduced himself as Frikkie Coetzee,the owner of the dog in question. I asked Mr. Coetzee to see the dog and we went inside the property. The property is very small and there is hardly any space to move around,next to the shack I saw 1x brown and white pitbull x male,called Zulu on a -+3meter long chain with a collar. On the the front left leg I observed a open wound,I asked the owner what happened and he said that the dog was bitten by another dog. I asked if the wound has been treated and he told me that washed the wound. The dog is chained because the property is not fully enclosed and the dog Zulu does not get along with other dogs. On the same property there is also a brown and white terrier x female called Ella who is loose,she is very friendly and gets along with other dogs. I expressed my issues i have with Zulus living conditions and the untreated wound with Mr. Cloete and issued him with warning W6368. Will follow up.

ACTIONS

Warning Issued W6368
