General Report Comments: I was met by the owner Mr. Coetzee. I was glad to see that Zulu was not on that short chain as before. Zulu has been put on a running chain with a collar at the back of the property where he has much more space to move around. The wound on his leg is much better and is drying out. While there Mr. Coetzee was busy with Zulus shelter as he has moved Zulu now to the back. The female dog Ella is still loose and was roaming around. Water was also observed. Living area is clean. I educated about sterilisation and Mr. Coetzee decided to sterilize both of his dogs if we can help him. I told Mr. Coetzee that Zulu needs to gain some more weight before we can sterilize him. Will print the consent forms for sterilization and follow up.
