General Report Comments: Mr Nzoza from Law Enforcement, Saldanha Bay Municipality, requested that a joint inspection be conducted at the property to assess the welfare of the cats on the premises. Upon arrival, Zelda, the owner of the property, granted access for the inspection. I observed five cats, all of which were in acceptable condition. Adequate food, water, and shelter were available and observed during the inspection. Zelda advised that neighbouring residents have been complaining about the number of cats on the property. A lengthy discussion followed regarding the feral cats located behind her property, for which she has provided shelter, as well as concerns raised about the overall number of animals being kept on the premises. The cats appeared well accustomed to the environment and were observed moving freely between the house and the property through a window. After completing the inspection, it was evident that there were no welfare concerns relating to the cats. The matter appears to be a neighbourly dispute concerning the number of cats on the property and allegations that the cats constitute a nuisance. Zelda confirmed, and it was noted, that all cats on the property have been spayed or neutered.
