General Report Comments: My colleague field officer Baloyi did a collection at this address and the dog that he collected was in poor condition, underweight. According to a family member the dog was poisoned, but they did not have any proof. Field officer Baloyi informed me about the case and I went to do an inspection. Upon arrival I was met by a guy called Boetie, who was not very helpful because he did not even know the dogs names. On the property I saw 1x brindle Africanus x male on a running chain with a collar and 1x brown and white pitbull x male also on a running chain with a collar. Both dogs have access to water and adequate shelter. Both dogs are underweight, I asked Boetie if they have food for the dogs and he told me that his mother went to town to buy some dog food. I issued warning W6386 for the owner to provide the dogs with adequate dog food. Will follow up.
