General Report Comments: On arrival the juvenile female bull terrier dog named Roxy was inside the house. The dog is aggressive and Liza's boyfriend Richard had to hold the dog. Roxy is on treatment for ear infection. The dog is very vocal and hyperactive. Liza informed me that the neighbours were complaining about the dog barking constantly and by shouting at the dog she was trying to stop the dog from making noise. The dog's body condition is fair and acceptable. I observed fresh drinking water. Roxy sleep inside the house. Richard was upset and threatened to beat up the neighbor whenever they meet but I informed him that the complaint came in as anonymous and the SPCA does not know the identity of the complainant. There is no further action
