General Report Comments: I saw 1x Black and brown Rottweiler male tied with a +-3 meter long rope,his water ucket was tipped over. Shelter is available and the dogs body condition is acceptable 3.5/5. While doing my observations a guy called Heinrich approached me and said that he works at the race course and he also the one who looks after the dog called Charlie. Heinrich told me that they let Charlie loose at night but during the day he can't be let loose because there are families renting houses on the race course and Charlie is very aggressive. I raised my welfare concerns with Heinrich and issued warning W6257. Will follow up.
