General Report Comments: On my arrival, I shouted and hooted but no one came out of the property, no response I got, it looked like no one was available, the gate was locked.
I went to the neighbors and there I met Mr Gitgit, of which he allowed me to view the dog through his fence, I then observed a brown and black dog, the dog appeared physically looking having a positive clinical changes due to its skin condition(the hair appeared growing all over the body).
I couldn't gain access to the property to do proper welfare inspection on the dog because there was no one available in the property.
