General Report Comments: I went to do a recheck on the pitbull x female, Skyler to see how her skin condition is, I found the owner Mr. Sass at home. Mr. Sass told me that he appreciates my concern and advise to him, because he can see that the Simparica tablet that he has purchased to treat the skin problem is working. I could clearly see that the Simparica is working, not all the hair has grown back but it has only been three weeks since the Simparica was given. Skyler is still loose on the property, Mr. Sass had to use my leash to keep her still so that I could take some pictures. Water and shelter is available. I will do another recheck within 2 weeks.
