General Report Comments: On arrival I observed three adult cats on the property and upon questioning Mr Andrew he admitted that the cats are his but they are hardly at home as they walk around looking for food. He then took me to where the mange dog named Bruno was lying and there was a thin puppy sitting next yo Bruno. I convinced Mr Andrew to surrender all the cats and the two dogs. Bruno did not receive any treatment for his mange. There are no animals left on the property.
