General Report Comments: On arrival I met a guy who introduced himself as Wayne and he informed me that the dog belong to his brother. He then left the property claiming that he was on his way to fetch his child at school. He informed me that I must wait for his brother to come but I told him that I was issuing a warning and will leave it at the gate. The male Terrier X dog is underweight and the body condition needs to improve. The dog is on a rope of about 2-3m long and I observed a collar around the dogs neck. I observed shelter and water. After issuing a warning,there was a lady who came to the property and she refused to give me her name but she took the warning and placed it under the door.
