General Report Comments: There was no people at home. Zuzu is on +-8 meter long light weight static chain with a collar and can now move to the front of the house. On my first visit his chain was so short that he could only reach his kennel. There still no wire or cable for the running wire but at least he has more space to move around. I saw that he took his blanket out again. Water and food is available. The last time me and Mrs. Sitite had a conversation I talked to her about sterilization and she said that she will talk to her husband. I will have to do a recheck to find out if they want Zuzu to be sterilized.
