General Report Comments: On my arrival, I was welcomed by Mrs Juliana Hendricks, I observed the same 2 dogs I found at first inspection, the dogs appeared physically looking good in condition with no veterinary problems or health concerns, water was available, the owner did comply by building adequate shelter for the other dog as it was stipulated on the notice to comply I issued.
Both dogs were on running wire of 5 meters long with light chains of 5 meters long to the collars.
The dogs were chained because the property was not adequately fenced and the space was too small in the property.
