General Report Comments: On my arrival doing door to door animals welfare inspection, I was welcomed by Mrs Andrea Williams family member in the property she is living. I observed one brown female adult Africanis dog named Roxy with her 4 puppies of 2 months. All the dogs appeared physically looking good in condition with no veterinary problems or health concerns. Shelter was available, living environment was cleaned and water was available.
Mrs Andrea said the dog is giving birth a lot and they don't want puppies because everytime they give away the puppies to people, I then educated her about sterilization and advised her to surrender all x4 remaining puppies, she did surrendered the all 4 remaining puppies and I also took the adult female mother of the puppies to be sterilized, see admissions no E3558, E3559, E3560, E3561 and E3562, of which the puppies were humanely euthanized upon my arrival at the Darling SPCA.
