General Report Comments: Both dogs are running freely inside and outside the property as the property is not properly fenced. I observed water and shelter. Both dogs have mange that is in it's early stages. I explained to Lorenzo that it was going to be difficulty to treat two dogs and I convinced him to surrender one dog which he agreed. I also convinced Lorenzo to have the remaining male dog sterilized which he agreed and I explained to Lorenzo that the dog will be sterilized only when the mange on the dog is treated. I issued a warning which I will recheck.
