General Report Comments: Lorenzo was inside the house and I spoke with his mother Desiree Gordon who informed me that she was not aware that there was a warning from the SPCA which needed to be adhered to . The dog was moved from the position where he was before but there is no collar available for the dog despite the fact that there is a body harness fitted on the dog's body. The dog have got a skin condition that needs to be treated and the dog is not getting enough food. After having a discussion with Lorenzo's mother I issued another warning advising Lorenzo to:

- (1)provide vet treatment for the skin condition on the dog named Copper
- (2)provide adequate dog food for Copper
- (3)provide a collar for Copper
