General Report Comments: There is two dogs at this property. The male dog named Tommy constantly fight with other male dogs whenever there is a female dog on heat in the vicinity. When I arrived the female dog named Lulu was locked inside the house because she is on heat. There was water available for both dogs but the male dog does not have shelter and he sleep in front of the house. I issued a warning advising Ms Mathebula to provide shelter for Tommy and Ms Mathebula want to sterilize both dogs but she doesn't have the money. I informed her to provide shelter for Tommy and the SPCA can help with the sterilization
