General Report Comments: I saw 1x brown x breed male on a running chain but his chain was tangled by the gate. The dog also did not have a collar around his neck. I stopped and a child came out. I asked her if her parents are at home and she said no. I asked the girl to untangle the chain and she did. There is a running wire but it is not installed properly. Shelter and water is available. The dog called Brownie body condition is acceptable 3/5. I issued warning W6398. Will follow up.
