General Report Comments: On my arrival, I met Mr Bitise the owner of the dog, I observed a wooden dog house that he did build adequately, water was available in a 5L bucket, and living environment was cleaned, the property was still not adequately fenced with a gate.
The dog appeared physically looking good in condition with no veterinary problems or health concerns.
The owner placed a tie cloth as a collar around the dog's neck saying that he is still looking for a proper adequate collar. The dog was on a running but the running wire was placed against the neighbors fence of which it was not an adequate running wire, the chain was light and 7 meters long.
I educated the owner how to put adequate running wire as stipulated on the notice to comply that I issued him before.
