General Report Comments: On my arrival, I met Mr Bitise the owner, I observed the same male dog named Spider, was on a running wire of 5 meters long with a 7 meters long light chain to a pink collar, the running wire pens was not deeply in to the ground, I then educated the the owner that the pens must be in deep the ground until to their tip top not to cause a chain tangle around the pens when the dog moves around.
Water was available, living environment was cleaned, and shelter was available. The owner did show a positive progress complying to the notice to comply issued to him.
