General Report Comments: I saw 1x white pitbull male on a short static chain that is about 2.5meters long with a collar. Joseph granted me access to the property to do a more close up inspection. The dog called Polla is on a chain because he is very aggressive as I have noticed and because the property is not fully enclosed. Water is available. The makeshift shelter is not adequate. Pollas body condition is acceptable 3/5. I issued warning W6251. Will follow up.
