General Report Comments: On my arrival in Malmesbury doing animals welfare inspection door to door in Kraanvoel street, I went to house no 3, and there I was welcomed by Mr Hainney Andrew, there was a small male dog probably a Maltese terrier cross of which it appeared physically not looking good in condition (possibly mange).

The dog was roaming freely and able to go in and out through palisade gate, in question (I asked Mr why is the dog in that condition), he replied by saying that the dog just came into his property and he loved the dog though he didn't know what to do with its condition. I then educated him that he will have to take the dog for adequate veterinary treatment or Alternatively he can surrender the dog , he then chose to surrender the dog, see admission E3565. I then issued him with a notice to comply for in future, see notice to comply no I5713.

I then took the dog and brought it to the spca Darling and was taken to the village vet for adequate veterinary treatment, the dog was given Bravecto, antibiotics and injection.
