Comments:	On my arrival in Malmesbury, as I was driving in Biko street ilengulethu, I came across 5 dogs busy attacking a black+white male dog on the street, I then approached the dogs and tried to separate/get rid of them from not attacking the other one, after I managed to separate the dogs, the one that was attacked then got under the spca bakkie, it looked scared and had a fear from the dogs that attacked him, I then picked the and brought it to the spca as a stray, see admission no E1947.
