Type:	GENERAL
Follow-Up Date:	
Comments:	On my arrival to Riverlands in Sandpypie street, I ask around if there is a person by the name of Babe/Babikie, and if there is anyone in possession of having a horse, unfortunately there was no one by the names mentioned above and there was no one having or owns a horse/s within Sandpypie street. I then tried to ask if the public members if they are aware of an injured horse that was stabbed with a knife a it's testicles being completely cut off. No one seems to know anything in rection to the history given about the horse, I tried to drive around Riverlands and still did not get any info in relation to the horse history. NFA.
